1.a Name of all wholesale suppliers and the base (current) rate and changed rate of each. In the event the water purchased is billed by the supplier on a rate that is not a flat rate schedule, the entire rate schedule must be shown. Attach additional sheets if necessary.

4. Total sales for the 12-month period 136,603.8 (1000 gallons)

6. Purchased water adjustment factor \$0.09 per 1000 gallons.  
The purchased water adjustment factor is obtained by dividing the increased cost of water by the total gallons sold.

Note: The purchased water adjustment factor is added to each thousand gallons sold. If the minimum usage is 2,000 gallons then the purchased water adjustment factor would be added to the minimum bill twice. Revised tariff sheets must be attached showing the rate to be charged by the utility and the effective date of the increased rates.

7. Proposed effective date April 1, 2008.

Dear Mr. Withers,

This letter is to inform you that the City of Versailles has, on this day, filed a rate increase request with the Kentucky Public Service Commission to take effect April 1, 2008.

The new rate that we are proposing is to compensate the City for the Kentucky River Authority's (KRA) withdraw fee increase that also takes effect on April 1, 2008. This action was taken by the KRA at its December 13, 2007 meeting.

As always, we appreciate your business and look forward to continue working with you. If we can be of any assistance, please feel free to contact me.

Sincerely,

**Bruce Southworth**  
Public Works Director
